# ASSOCIATION OF ROTATIONAL MOLDERS INTERNATIONAL

## BOOKSTORE

### MANUALS AND BOOKS

#### ***A World of Applications***

The generic design allows you to use this glossy, 4-color brochure as a marketing tool to promote your company and the process. (28 pages)

#### ***ABC's of Nylon***

Provides information for the processing of nylon material, including tests for proper cure. (23 pages)

#### ***ABC's of PVC***

Provides information for the processing of PVC material, including tests for proper cure. (23 pages)

#### ***Effective Leadership: Train, Teach, and Inspire***

Guidelines for the development of a training program and performance assessment plan. (109 pages)

#### ***Glossary of Terms***

Includes common terms and definitions related to equipment, molds, quality control, colorants, and additives. (31 pages)

#### ***Introductory Guide to Designing Rotationally Molded Plastic Parts***

Covers process capabilities and applications. Directed toward improved product design and quality. Contains useful formulas used by production personnel and engineers. (25 pages)

#### ***Listing of Rotational Molding Equipment***

Reference guide to equipment specifications used in the rotational molding process. (89 pages)

#### ***Managing For Success***

Your guide to hiring and keeping quality employees. (61 pages)

#### ***Membership Directory***

Annual directory includes a listing of all member companies. (182 pages)

#### ***Moldmakers' Glossary of Terms***

Common terms used in the design and manufacturing of molds. (30 pages)

#### ***Plastics and the Environment***

Designed to help increase the awareness of plastics use and to support the goal of a cleaner environment. (21 pages)

#### ***Practical Guide to Rotational Moulding by Roy Crawford and Mark Kearns (2003)***

Describes the basic aspects of rotational molding and includes information on the latest state of the art developments in the industry. Illustrated. (174 pages)

#### ***Rotational Molding by Glenn Beall***

Written as a guide to the process. The reader will gain a broader understanding of the process and will be in a better position to design and develop low cost, high quality plastic parts. (241 pages)

#### ***Rotational Molding—The Basic Process***

Introduction to all aspects and applications of the rotational molding process. (13 pages)

#### ***Rotational Moulding of Plastics (2<sup>nd</sup> Edition) by Roy Crawford***

Introduces the subject and gives comprehensive coverage of the state-of-the-art of rotomolding. Two new chapters have been added, covering pinhole removal and rotomolding liquid polymers. (253 pages)

#### ***Rotational Molding Technology by R. J. Crawford & J. L. Throne***

An intense in-depth exploration of the technical process of rotomolding. (399 pages)

#### ***Rotomoldeo Para Diseñadores Industriales (2004)***

By D.I. Juan Carlos Ortiz Nicolás of Universidad Nacional Autónoma de México. In Spanish (63 pages)

#### ***Success Through Association***

The story of ARM from the history, through the formative years, the maturing, today and into the future. (125 pages)

#### ***Trouble-Shooting Manual***

A handy reference for machine operators who may need assistance during the molding process. (47 pages)

## VIDEOS , CDS & DVDs

### ***Advanced Seminar in Rotational Molding CD***

Slides from Dr. Roy Crawford's seminar.

### ***Before You Begin***

Excellent training tool that demonstrates the responsibilities of the machine operator. (11:05 time) Video or DVD

### ***Color Consistency***

Examines the variables that affect the color quality of parts to help achieve desired consistency. (18:17 time) Video or DVD

### ***Curing***

Describes how the basic mechanism of the rotational molding process affects the quality of the part produced, and provides ideas for practical tests that can be used to make sure correct cure has been achieved. (13:40 time) Video or DVD

### ***Proper Venting***

Demonstrates how much venting is needed, the type and placement of vents, and proper vent maintenance techniques to help operators produce quality parts. Available in English video and Spanish CD. (8:54 time) or DVD

### ***Safe Operations Checklist for Rotational Molding Plants—A Guide***

Useful tool for the development of a checklist program as a possible route to create a safer work environment. (12:00 time) Video or DVD

### ***Shielding Techniques***

Explores variables that influence wall thickness, and demonstrates various ways to control the rate of heat transfer through the mold wall. (11:15 time) CD or PAL Video or DVD

### ***Unlimited Possibilities***

This excellent marketing tool explains the process capabilities to potential customers. It is now available in 5 languages: French, German, Italian, Spanish and English. (6:35 time) Video or CD or DVD

## GIFTS (MEMBERS ONLY)

### ***Briefcase (soft sided)***

Handsome, durable, black and gray polycanvas bag with ARM logo. Includes shoulder strap & multiple pockets .

### ***Jr. Padfolio***

Nylon Oxford /Simulated Leather trim ; Zippered padfolio w/ quadrafold organizer; debossed with logo.

### ***Padfolio***

Leeds Distinctions leather zippered full size padfolio with outside pocket, inside organizer pockets and removable jotter pad. Debossed with logo.

### ***Pins***

Lapel pins of the ARM logo. In blue and white with a highly polished enamel finish.

### ***Baseball Caps***

Beige and black with the ARM logo.

### ***Swiss Army Knife (Limited Quantities) 20<sup>th</sup> Anniversary Edition***

## ORDERING INFORMATION

**How to Order:** Complete the order form in full and return to ARM International. Make sure to indicate video format or language selection where applicable. The Bookstore is also available on-line at [www.rotomolding.org](http://www.rotomolding.org).

**Payment:** **All orders must be prepaid.** Payment can be made by Visa, MasterCard, or American Express, or by company check.

**Shipping:** Orders to the U.S will be shipped via UPS or surface mail for a standard shipping and handling fee of \$30 for **up to a maximum of ten (10) items**. Contact ARM International for shipping and handling charges for orders exceeding 10 items and **for INTERNATIONAL orders**.

If you prefer a faster method of shipping or are ordering large quantities (more than 10 items), contact ARM International regarding additional shipping fees.

**Quantity Discounts:** Contact ARM International for discount pricing on quantities of 10 or more of any item.

**Other Info:** ARM International members have access to the Rotational Molding Technical Library, which houses an assortment of technical papers. For more information, contact ARM International, or visit [www.rotomolding.org](http://www.rotomolding.org) for a complete list of titles.

**Questions:** Contact the ARM International at:  
Phone 630.942.6589  
Fax 630.790.3095  
E-mail: [info@rotomolding.org](mailto:info@rotomolding.org)
